

DATA SHEET

Stitch Ply A

Non-coated nylon peel ply with red tracers

■ DESCRIPTION

Stitch Ply A is a similar version of Release Ply A with red tracers (pin stripe) for easier identification on the laminate.

Release ply fabrics are peel plies, used to texture the surface of a composite laminate. The peel ply surface is helpful for secondary bonding or painting of the composite laminate. Release ply fabrics may reduce or eliminate the need for sanding or abrading. The various weave styles should provide a match for your specific application.

The fabrics are scoured and heat set (unless specified) to remove most contaminants and reduce shrinkage.

■ TECHNICAL DATA

Maximum use temperature	232 °C
Fibre type	Nylon
Fabric construction: warp x fill	180 x 180 ends/ dm x picks/ dm
Weight	88 g/m ²
Thickness	0,0067 inch (0,17 mm)
Colour	White
Tracer	Red
Extractables	0,5 % by weight

■ SIZES

Modified for the LOT# L-114320

Width	Length	Packaging
60 inches (152 cm)	100 yards (91,44 m)	1 master roll

■ NOTES

- > Maximum use temperature is dependant upon the duration at maximum temperature and is process specific. Airtech recommends testing prior to use.
- > Hot knife slitting upon request with 1 master roll as minimum order quantity.
